The EcoSmart Fire Ghost\* is a strikingly elegant, almost invisible fireplace fashioned from toughened glass and stainless steel that lavishes design appeal on any décor. Perfect for smaller, more compact indoor spaces, both residential and commercial.

The see-through, reflective glass panels enhance the captivating flame and further add ambience and warmth to living areas. And its unique flexibility and portability enable the Ghost to be easily positioned in many different settings.

The Ghost includes the EcoSmart AB3 Burner – an efficient 2.5-litre burner that will take the chill off for up to eight hours. Ghost is fuelled by readily available, clean-burning, environmentally friendly bioethanol.

*\*Logs not included*

MODEL	MATERIALS	COMPATIBLE BURNER	VOLUME CAPACITY	HEATS ON AVERAGE	FUEL CONSUMPTION	BURNING TIME MAX SETTING
Ghost	Stainless Steel Toughened Glass	AB3	2.5 Litres [2.5 Quarts]	Over 20m <sup>2</sup> [215ft <sup>2</sup> ] When used indoors.	0.31 Ltr/hr [0.1 Gal/hr]	Approx 8 hours
